How to use this template:

Simply find the layout you like best, let us know what Row and what Item # on that row, send us the copy you want on your card, including any logos or graphics, and leave the rest to us! Please be advised that only high resolution vector graphics can be used for these quality backgrounds. If you do not have a vector file of your logo, we may be able to lay it over a white background. Just give us an idea of the card layout and we are happy to set up your card any way you like. We are also happy to quote on high quality customized designs to match your corporate/organization identity.
